# WHY CHOOSE US

Lonex uses a custom hosting platform, which can provide regular users with some benefits, usually reserved for virtual or even dedicated servers, such as native support for Memcached and Varnish, the ability to run and manage running background processes, support for PostgreSQL databases, Git and SVN support, etc.

It is built using the ZFS file system, which allows for a strong file compression, effectively reducing the file size of all files hosted with us. ZFS also has a native silent data corruption protection, something invaluable for hosting providers. Users are hosted on fast SSD drives, which allows for much improved I/O rates when compared with regular hard drives. Thanks to the ZFS file system and the SSD drives, we don't have a file quota or I/O limits for our users. Mod\_security is enabled by default, with an even-expanding set of rules, designed to automatically protect your sites.

You can also choose where to host your websites - we offer multiple data centers, located across USA, Europe and Australia.

## SERVICE GUARANTEES

- **24/7 Technical support**
- **1-hour response time guarantee**
- **99.9% Network uptime**
- **99.9% Service uptime**
- **Anti-virus protection**
- **Multiple daily data backups**

# OUR ADVANTAGES

## SSD STORAGE

SSD drives provide better I/O rates and nearly 100 times faster access time.

## DATA COMPRESSION (LZ4)

LZ4 compression allows for smaller write I/O burden and faster write speed.

## BACKGROUND PROCESSES

Native support for scripts running in the background on a web hosting account.

## PHP MEMORY ALLOCATION

Each account has a PHP memory allocation of 2 GB to ensure server stability.

## MAX PROCESSES QUOTA

Each account has a Max Processes Quota of 100 simultaneous threads.

## MYSQL CONNECTIONS QUOTA

Each account allows for 20 simultaneous connections to a MySQL database.

## PHP SETTINGS

You can switch between different PHP version or modify the PHP.ini file easily.

## PYTHON SETTINGS

You can switch between Python 2.7, 3.5 and 3.7 with ease.

## BANDWIDTH REDUNDANCY

Servers come with 2-4 Gbps of bandwidth to prevent network channel overload.

## VERSION CONTROL SYSTEMS (GIT, SVN)

Full Git and SVN support without the need to install any additional software.

# JOIN OUR GROWING FAMILY

You can explore Lonex's web hosting services risk-free for a total of 30 days. We don't require any credit card or PayPal information and you won't be billed until after the 30-day trial period expires, unless you decide to sign up earlier.

This way, you can evaluate the quality of our services at your leisure and see exactly why so many other webmasters have put their trust in us.
